A VISION FOR HONEST REFORM

## **Forget everything you know about politics.**

“Schools can be excellent; crime can be reduced; taxes can be fairer; development can make sense; city services can be efficient; and City Hall can be cleaner if we elect leaders that we trust.

“Our city council has failed to take leadership on our massive problems - our failed public schools, the lack of jobs, the terrible crime wave.

*But the people of Philadelphia have had enough.* This should be the greatest city in the country. Join me, and help take back our city.”

- community activist Vern Anastasio, Jan. 2007
